You may know me as a Memorial mom of four fabulous boys and wife to Roger Clemens, but what you may not know is that I love finding cool and unique products because let's face it, in a house full of boys, a girl needs her girl stuff! So, here are some things I absolutely love... and hope you will too!

### Creme-Delicious

What a great gift for mother's day! Send her a Creme-Delicious cake. Red velvet, vanilla, chocolate, or green tea are your choices, and they come in a square or heart shape. A beautiful display of edible artistry, and the most elegant petit four I have ever seen! [www.creme-delicious.com](http://www.creme-delicious.com)
